

Already 30,000 parking spaces in Switzerland

Pay parking fees conveniently with TWINT: now also in Yverdon-les-Bains

It is now possible to use TWINT to pay parking fees for some 2'000 parking spaces in Yverdon-les-Bains. Further cities in French-speaking Switzerland will follow soon. The hassle of finding change now belongs to the past, and additionally it will be possible to pay only for the actual time spent on the parking space. Some 30,000 parking spaces throughout Switzerland are already equipped with TWINT.

The TWINT App can now also be used to pay parking fees at 80 parking meters, corresponding to some 2,000 parking spaces in Yverdon-les-Bains. To do so, all that is needed is to open the TWINT app, scan the QR code on the parking meter, enter their car registration number on a one-time basis and select the desired parking period in the app. The fee is then paid via TWINT and debited directly from the registered account or credit card. Those who leave their parking space earlier than planned can have the remaining amount reimbursed via the TWINT app.

This innovative solution is the result of the partnership between TWINT and Digitalparking, the Swiss specialist in car park management. "In TWINT, we have found a strong partner. By the end of 2019, Digitalparking will have launched the solution in half

of Switzerland's major towns and cities", says Reto Schläpfer, Managing Director of Digitalparking.

Since the launch in Zug last summer, cities such as St.Gallen, Frauenfeld and Rapperswil-Jona have started offering TWINT for parking fee payments. Throughout Switzerland, around 30,000 parking spaces are now equipped with this option.

Town Councillor Valérie Jaggi Wepf, the Head of the Public Safety department of the municipality of Yverdon-les-Bains, stresses that "An easy way to pay parking fees using a smartphone is a simplification that is in line with current lifestyles. The municipality is thrilled to be able to offer this supplementary service to the inhabitants of Yverdon-les-Bains and its visitors."

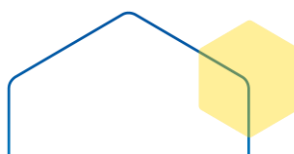

Markus Kilb, CEO of TWINT, adds that: "TWINT is Switzerland's digital cash. The simple act of paying parking fees without the hassle of having to find change is particularly convincing."

online press release

Further Information

73 Swiss banks offer TWINT as a mobile payment solution to their clients. TWINT customers can pay direct and cashless from their bank account in ecommerce, at the cash register and at vending machines. It is also possible for money to be transferred between private individuals and for payment requests to be made. With TWINT, users also benefit from added-value services, such as the ability to save customer loyalty cards. With 1,200,000 registered users, TWINT

is the most widely-used payment app in Switzerland. TWINT AG belongs to Switzerland's largest banks: the BCV (Banque Cantonale Vaudoise), Credit Suisse, PostFinance, Raiffeisen, UBS and Zürcher Kantonalbank, as well as SIX and Worldline.
